06 QUALITY

Quality Comes First

Quality in fresh produce begins at the source and continues throughout the export process. We focus on maintaining product quality through a structured process that includes:

Our objective is to supply products that meet the specifications agreed with each customer while maintaining the quality, freshness, appearance, and condition required for international trade.

Packing Solutions

Packaging plays an important role in protecting fresh produce and meeting the requirements of each destination market.

Packing specifications can be customized according to:

- Product type
- Weight
- Size
- Grade
- Market requirements
- Customer specifications
- Shipment requirements
- Destination

Packaging details are agreed with the buyer before shipment to ensure that the final presentation and protection of the product meet the agreed requirements.

08

COLD CHAIN

Protecting Freshness from Origin to Destination

Fresh produce requires careful handling throughout the supply chain.

We pay close attention to the requirements of each product during preparation and shipment, including appropriate temperature management and refrigerated transportation where required.

Our goal is to help maintain product freshness quality, and condition throughout the journey from Egypt to the destination market

From origin to destination, freshness matters

EXPORT PROCESS

A Clear and Reliable Export Process

Packaging plays an important role in protecting fresh produce and meeting the requirements of each destination market.

Packing specifications can be customized according to:

10

OUR MARKETS

Connecting Egyptian Produce with International Buyers

AL ALIAA focuses on international markets where Egyptian fresh produce can provide reliable supply and competitive value. Our target markets include:

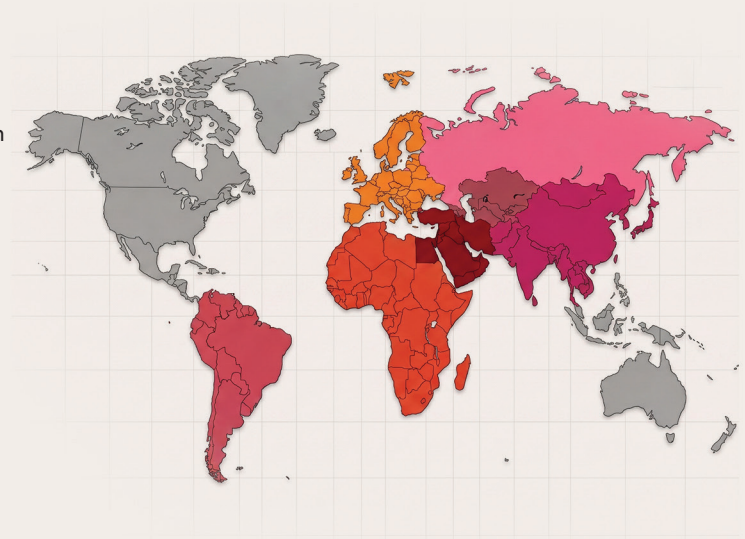

Russia

Russia is one of our key target markets for Egyptian fresh produce.

We work to supply suitable fruits and vegetables to importers, wholesalers, and distributors according to market requirements, seasonal availability, product specifications, and shipment needs.

International Markets

We also seek opportunities across international markets where Egyptian fresh produce has strong demand and suitable export potential. Our approach is based on understanding the requirements of each market before confirming supply.

EGYPTIAN FRESH PRODUCE TO RUSSIA

Your Fresh Produce Source from Egypt

AL ALIAA works to connect Russian importers and distributors with selected Egyptian fresh fruits and vegetables.

Products available for export may include:

- Oranges
- Pomegranates
- Mandarins
- Mangoes
- Grapefruit
- Potatoes
- Lemons
- Onions
- Grapes
- Carrots

Product availability depends on seasonality, sourcing conditions, quantities, and customer requirements.

We work with buyers to define the product specifications packaging, quantity, shipment schedule, and destination requirements before confirming an order.

From Egypt to Russia

Fresh Produce with Reliable Export Support.

12

SEASONALITY

Fresh Produce Seasonal Calendar

Fresh produce availability varies according to product variety, growing region, production conditions, and season.

For this reason, AL ALIAA confirms actual availability before accepting and scheduling an export order.

Buyers can send us:

Product + Quantity + Required Specifications + Destination + Shipment Date

Our export team can then review the availability and suitable supply period for the requested product.
